The nature versus nurture debate is about the causes of differences between people. Like all living things, people have inherited innate qualities. There are also events or experiences which happen during life. 'Nature' describes the effect of a person's genes, whereas 'nurture' describes whatever happens during life. In the language of population genetics, the heritability of a feature is ...

Nature versus nurture - Simple English Wikipedia, the free
Nature is what we think of as pre-wiring and is influenced by genetic inheritance and other biological factors. Nurture is generally taken as the influence of external factors after conception, e.g., the product of exposure, life experiences and learning on an individual.

Nature-nurture in de filosofie. Het psychologische nature-nurture-debat heeft zijn oorsprong in een filosofische discussie, die gevoerd wordt door empiristen versus rationalisten. Het empirisme is een kentheoretische opvatting, die stelt dat alle kennis uit de waarneming, ofwel de zintuiglijke ervaring stamt. Het rationalisme is de contraire opvatting, die stelt dat de mens beschikt over een ...

On Gender Differences, No Consensus on Nature vs. Nurture. Americans say society places a higher premium on masculinity than on femininity. By Kim Parker, Juliana Menasce Horowitz and Renee Stepler. Twenty-five years after the release of the bestseller "Men are from Mars, Women are from Venus," the debate over how and why men and women are different and what that means for their roles in ...

The concept of nurture kinship in the anthropological study of human social relationships highlights the extent to which such relationships are brought into being through the performance of various acts of nurture between individuals. Additionally the concept highlights ethnographic findings that, in a wide swath of human societies, people understand, conceptualize and symbolize their ...
